Denpasar, Bali, Indonesia

Fresh graduate in Informatics Engineering with a strong interest in UI/UX design, user-centered design, and digital product development. Experienced in creating design solutions through research, prototyping, usability testing, and data-informed decision-making. Passionate about combining analytical thinking, creativity, and collaboration to build intuitive, meaningful, and impactful technology-based solutions.

Pengalaman Kerja

PT TRAVLR GUIDES INDONESIA - **Bali, Indonesia** Feb 2025 - Jun 2025

UI/UX Intern

PT TRAVLR GUIDES INDONESIA is a digital travel technology company that provides an integrated platform for travel discovery, booking, and personalized travel experiences through its flagship product, The Bali Bible.

- Designed an end-to-end mobile travel application by transforming an existing web-based travel platform into an intuitive and user-friendly mobile experience.
- Created wireframes, high-fidelity designs, prototypes, and design iterations using user behavior, demographic insights, and internal data, and created the Travlr AI innovation concept.
- Conducted usability testing using Maze with 23 respondents across 14 testing blocks, translating feedback into actionable design improvements with cross-functional teams.

Pendidikan

Universitas Brawijaya - **Malang, Indonesia** Aug 2022 - Jan 2026

Bachelor of Computer Science, 3.72/4.00

- Completed a Bachelor's Degree in Informatics Engineering within 3.5 years with a strong academic foundation in technology and problem-solving.
- Participated in national-level competitions, academic projects, and an MBKM industry internship as a UI/UX Design Intern, strengthening analytical thinking, creativity, and data-informed design skills.

Organizational Experience

Raion Community - **Fakultas Ilmu Komputer, Universitas Brawijaya** Feb 2024 - Jan 2026

Hipster Division (UI/UX Designer)

Raion Community is a Mobile and Game Developers Community under the Faculty of Computer Science, Universitas Brawijaya, focused on developing skills in digital product development, mobile applications, games, design, and technology.

- Actively participated in internal hackathons (HackJam), contributing to the development of innovative digital product solutions within a collaborative team environment.
- Involved as a committee member in organizing RAION Insight 2024 event program.
- Engaged in skill development programs and workshops organized by the community, continuously enhancing knowledge in digital product development

Bulan Ulang Tahun UNIKAHIDHA 2023 - **Malang, Indonesia** Jun 2023 - Dec 2023

Head of Design, Decoration, and Multimedia Division

Annual organizational event celebrating the anniversary of UNIKAHIDHA, the Hindu Student Organization of Universitas Brawijaya, through cultural performances, entertainment, and awarding sessions.

- Led and coordinated an 8-member Design, Decoration, and Multimedia Division, ensuring high-quality visual execution across all event materials.
- Managed promotional content publication on Instagram with 2,000+ followers and oversaw photo and video documentation for an event attended by 150+ participants.

Hindu Brahmacharya Competition & Charity 2023 - **Malang, Indonesia** Feb 2023 - May 2023

Head of Design, Decoration, and Multimedia Division

A national-scale charity and competition event involving participants from across Indonesia.

- Led and supervised a 5-member Design, Decoration, and Multimedia Division, ensuring consistent branding and high-quality visual execution for a national-scale event.
- Managed promotional visual content for Instagram with 1,000+ followers, multimedia production, and documentation, contributing to the successful execution of a national-level charity and competition event.
